SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The faculty and staff members of Reeves Elementary School are committed to motivating and challenging each student to chart a course for successful learning. Our faculty and student body set high goals for themselves, and we diligently strive to achieve them. We are a PBIS (Positive Behavioral Interventions and Supports) school. We work to foster increased student achievement in a safe, happy learning environment with a focus on rigor, relevance, and relationships. Our Marlins rock! We are Responsible, Organized, and we are working to build Character and Knowledge everyday.

Over 900 students attended Reeves during the 2008-2009 school year. This year, we added classes and four additional learning cottages. Our staff has charted a course for success, and we take deliberate steps each day with the support of our PTA and SIC in order to achieve those goals.

Academic excellence and student achievement are our goals. Teachers participate in Professional Learning Communities to be deliberate about setting each student up for success and to have discussions about student achievement/performance. We use MAP (Measures of Academic Progress) tests in K-5th grades. We also test in our early grades using the DIBELS (Dynamic Indicators of Basic Early Literacy Skills) instrument and DRA (Developmental Reading Assessment). These data points give us specific feedback regarding student performance and enable teachers to target the specific needs of our children. Students have continued to participate in PASS-like district-wide writing prompts. We continue to focus on literacy instruction and solid math instruction in our district to further help us achieve our goals for student performance. We have provided small group differentiated instruction through a variety of programs and schedules in kindergarten–3rd grades. We have READ 180 in both 4th and 5th grades. Our district interventionists provide tremendous staff development for our teachers in all content areas.

We have technologically up-to-date computer labs that are utilized by teachers and students on a regular basis to develop PowerPoint presentations, to conduct research, to work in their individual learning portfolios within the Compass program, and to develop computer literacy skills. Each class has a SMARTBoard (interactive whiteboard), an LCD, and a set of Senteo clickers to enhance instruction and learning.

A challenge that we face is the continued growth in student achievement for all of our students with a special focus on sub-categories to include our special needs students, our ESOL (English for Speakers of Other Languages) students, and our minority students. We have seen growth for our students and will continue work to foster the development of our students, both in academic achievement and personal growth. With strong community support and caring parents who support us, we will be successful in our efforts to achieve excellence.
